

Long Branch Chamber Member Exclusive Offer!

The Long Branch Chamber announces the pre-sale to advertise on our new web site for 2016. Ads will go quickly so call us today at 732-222-0400 to buy your spot.

The Chamber web site is the “go to” place to find out what’s happening in Long Branch and beyond! The site is updated, mobile responsive, and has expanded content that includes an expanded section on wedding planning in Long Branch – one of the most frequent requests we receive at the Chamber for assistance. The site also includes an expanded interactive map, fully searchable business directory, events calendar and the ability to pay your dues online. These are just some of the ways we are upgrading the experience for our members and visitors.

Since the launch of the web site in June, we’ve had 80,000 page views – with 76% of them being new visitors to the site. These numbers will continue to grow with the upgrade and as we proactively send visitors to the site.

We only offer four exclusive ads on our web site to give advertisers the most visibility and opportunity for click throughs. As per the attachment, advertisers can purchase at position one, two, three or four, which will give them premier positioning on the home page and ALL subpages.

Advertising rates are bi-annual starting January 1, 2016. Advertising will be opened to non-members (an additional \$200 per ad) after the special promotion period for members only, if spots remain available.

Jan. 1 – June 30, 2016

July 1 – December 31, 2016

Deadline December 31, 2016

Explore the new Long Branch...
Working Together to build a 21st Century City by the Sea

While life in most New Jersey Shore communities is centered around a noddy block or two of business district and a hubbub of activity during summer times, life in the year round City of Long Branch is too energetic, too diverse, and too full of ideas to be confined to a single "hub" and a single season.

Visitor Information

Explore the Districts

Click the areas on the map for information about each unique Long Branch District and a listing of businesses located there.

NORTH LONG BRANCH
The North End remains the kind of place where you can swap fish stories or catch the latest rumors of surf while enjoying all the benefits of modern shopping plazas, some truly fine restaurants — even a popular skate park.

DOWNTOWN
The heartbeat of city life for generations, Downtown has a little something for everyone in its eclectic mix of the old and the new — including some ethnic eateries that are genuine “best kept secrets.”

OCEAN PLACE
A beautiful beachfront setting and seaside promenade combine with a world-class resort hotel and conference center to make the Ocean Place district a destination in itself.

UPTOWN
Minutes from the Garden State Parkway and Monmouth Park Racetrack, the Uptown district takes in a lot of territory — especially in its mix of neighborhood shops with some top-notch dining spots.

PIER VILLAGE
The flagship project of the city’s new era offers much to enjoy, from popular new restaurants to a dazzling array of upscale shops — all with plenty of parking and easy access to both the beach and boardwalk promenade.

STATION STOP LONG BRANCH
The modern NJ Transit rail station stands at a bustling crossroads that includes both the state-of-the-art Monmouth Medical Center complex and the old-world charm of the city’s legendary Italian restaurants.

WEST END
Just minutes from Monmouth University, West End pulses with a beat all its own. Home to outdoor concerts, art happenings, antiquing, shopping and some great nightlife, the district has popular restaurants and legendary late-night eateries.

BEYOND LONG BRANCH
There are numerous businesses that are part of the Greater Long Branch Chamber of Commerce that do not technically reside within the city limits. From professional services to retailers and more, these businesses in our extended network are valuable resources for our community.

ELBERON
Home to many of the city’s most beautiful homes — in addition to such treasures as lovely Lake Takanassee and the historic Church of the Presidents — the southern most section of Long Branch also boasts a charmingly restored rail station as its centerpiece.
